UNBLOOMED SEEDLINGS IN FOUR-INCH POTS

from the Manda Collection. While all should bloom on current or next leads, and many are carrying small bloom sheaths, these seedlings could be shipped out-of-pots without harm and at considerable saving in shipping charges.

Descriptions are from tags on Mature Hybrids of the same parentage, or from the catalogues of their original growers. If you have copies of their current catalogues, a swift check will convince you the prices I am asking for these fine, big seedlings make them an outstanding "buy!" Please order promptly to get your share. Hawaiian customers, do not wait for Import Permit before placing your order.

Manda's #	HYBRID	DESCRIPTION	Approx No. in 4" pots
5.	<u>C. ESTELLE ALBA X C. MINNEHAHA</u>	Pure White blooms of good size & form for Winter. Usually very fragrant.	31

6.	<u>LC CASSANDRA X LC WINDERMERE</u>	Medium to dark Winter blooms.	30

HOW IS THE WEATHER IN YOUR NEIGHBORHOOD?

As you know, I ship ALL WINTER and GUARANTEE that your order will reach you in perfect condition if you live within delivery limits of the Express Company. Last Winter the Railway Express Company paid in full for the only shipment that froze, due to having been left all night on a siding. The customer took the opened package and contents to his local Express Agent, who could see that the plants had been adequately packed, and he filed a report to that effect.

However, if you want your order of these unbloomed seedlings to have an extra three months of Florida Sunshine, pay for them now and they will be selected and boarded without charge until it's Spring in your neighborhood. Then, when you notify me you are ready for them, they will travel to you promptly.

Assort your selection any way you wish, but please get your order to me as promptly as possible -- especially if your selection includes some of those numbers that are decidedly on the scarce side.

DANIEL RYERSON

82.	<u>C. LOU MORGAN</u>	(Treda, dark x Moss.,REF) Bright Easter blooms.	20
85.	<u>LC BYRON PALMER</u>	(C.Mahopac x Lc Altesse) Nov.Dec. dark blooms.	15
